

Lead Builder

The Laboratory Theater of Florida seeks a part-time builder. Builder should be able to work cooperatively with the Production Manager and Set Designer to implement plans for a stage set. Builder should have strong knowledge of set construction techniques, tools, and materials and must be able to work within a strict timeframe.

Responsibilities include:

- *building set according to the design of the set designer
- *creating safe area for actors and crew working behind the set
- *leading a volunteer build team in a friendly and instructive manner
- *constructing a set within a strict, predetermined period
- *keep and leave a clean and safe workspace

The theater will provide a stipend for this position. Please send letter of interest to info@laboratorytheaterflorida.com.

Retirees encouraged to contact the theater.

The Laboratory Theater of Florida, a 501(c)3 nonprofit organization, is dedicated to the promotion of the performing arts, through live performance, education, community outreach, experimentation, and the development of ensemble work. The company features ensemble productions, produces classic works, takes artistic risks, and features and challenges local performers of various skill levels.
